

TRUMP'S INAUGURAL ADDRESS 2025

Written by Laurel LaFramboise

1/1/2024 updated 6/1/24

I. Setting the tone

- A. **Jesus sums up the Bible:** Love your God, Love your neighbor, Love yourself.
- B. **Paul defines Love:** Love is patient, kind, forgiving, and hopeful.
- C. **God's will should be our will:** The goal of everyone in this administration, this country, this world should be patience, kindness, forgiveness and hopefulness to the best of our ability each and every day.
- D. **How do I stay hopeful...**when nearly half the country thinks I'm worse than Darth Vader?
 - 1. Each night I ask forgiveness for the stupid things I said and the mean things I did.
 - 2. Each morning I wake cleansed of those sins and eager to try to be as loving as I can.
 - 3. Those who keep record of the sins God has forgiven me merely burden themselves.
 - 4. I pity those who don't believe in a loving God and must carry the weight of their sins.
 - 5. If you are one of those people: Admit you're a sinner, Believe that through Jesus you can repent and be forgiven by God, and Commit to a changed life focused on love.
- E. **Jesus taught us to pray:** Recite the Lord's Prayer

II. Political Decisions

- A. **Political philosophy divides our country:**
 - 1. Government solves our problems.
 - 2. Government causes more problems than it solves.
- B. **Founders and I agree on the latter:**
 - 1. Unrestrained spending causes inflation and the threat of financial collapse.
 - 2. Unrestrained immigration causes economic, environmental and social problems.
 - 3. Unrestrained taxation/regulation depresses innovation and business growth, except in the criminal sector.
 - 4. Unrestrained lawlessness threatens the stability of society and safety of lawful citizens.
- C. **The President's job as I see it:**
 - 1. I will be the first President in 222 years to defend the US Constitution as originally intended and amended.
 - a) The US Constitution gave the federal govt a short and specific list of powers (called enumerated powers); all other gov powers were given to the States and the People.
 - b) The US Supreme Court in 1803 (Marbury vs Madison) gave itself a power not on that list, that rightfully belongs to the States/People: the power to determine the constitutionality of the actions of the other federal branches. In the 222 years since, their decisions and nondecisions have allowed the federal govt to grow into the monster it is today, using "implied powers" instead of amending the Constitution to add powers as the founders intended.
 - c) I will NOT enforce any law that uses "implied powers" as its reason for existence for I believe these implied powers are unconstitutional and should be immediately remitted to the States. I will not recognize the power of the other federal branches to dictate how I manage the Executive Branch, save for those powers clearly and unambiguously enumerated in the Constitution.
 - 2. Due to the above, I have today signed an Executive Order that IMMEDIATELY reduces, re-organizes, and regionalizes the federal executive branch. I have chosen Mark Meckler as VP to head this effort as I have many other fish to fry and he has spent over a decade working closely with state legislators to do through an Article V Convention of

States what I have just done with this EO. In order to prevent a future president from undoing our work, Mark will also work with the States and Congress to pass a government reform amendment to the Constitution that includes the following:

- a) The US Constitution and all state constitutions shall be interpreted as originally intended and amended.
 - b) An amended Article V Convention of States process that will allow states to challenge the constitutionality of federal government actions.
3. The above EO IMMEDIATELY eliminates cabinet level departments and all the regulations they have promulgated that were not authorized by the Constitution and that have duplicate organizations in all/most states and/or the remaining federal departments, making them redundant:
- a) Dept of Education
 - b) Dept of Health and Human Services
 - c) Dept of Agriculture
 - d) Dept of Labor
 - e) Dept of Housing and Urban Development
 - f) Dept of Transportation
 - g) Dept of Energy
 - h) Dept of Homeland Security (merge with Dept of Defense)
 - i) Dept of Interior? (merge constitutional aspects with remaining departments and management of fed land to states)
4. The above EO also decentralizes the remaining departments with at least 5 regional hubs located in smaller cities and little/no presence in Washington, DC. These regional hubs are subject to a review board made up of state officials in the region. The remaining departments must focus solely on powers constitutionally given to the federal executive branch and will:
- a) Encourage virtual work wherever possible
 - b) Discourage travel for work-related activities that can be done virtually.
5. A website has been set up to make this reorganization transparent and will be opened to the public after this speech is finished. Mark will hold a press conference tomorrow to include more details.
- a) All federal executive branch employees will be receiving a Reduction in Force message soon, and can go to the above website, enter their Employee ID # and view their RIF notice. ALL terminated employees will receive 3 months fully paid administrative leave as unemployment compensation, except those who refuse to cooperate with transition team requests (these will be immediately fired and lose the benefit). All contracts with these departments shall be immediately terminated with 3 months fully paid labor, and materials received by termination date.
6. This EO does NOT affect security personnel (buildings, airports, border, military) as I take my oath to defend the country against enemies foreign and domestic very seriously. This EO does NOT affect the Social Security Administration, which is independent of the Executive branch.
7. The transfer of power from the federal executive branch to the States shall be accomplished before the next federal fiscal year. All eliminated departments will have a

budget request of \$0.00 and any funds granted to them by Congress will not be spent or will be moved to underfunded constitutional duties.

8. I will use the large reduction of federal employees to move to an 8 day work week where each federal position requires 2 employees working 4 days on, 4 days off all year. No holiday, vacation, sick day pay, but the same annual salary as a 7 day work week. I will require clearly set expectations/hour or week to incentivise high performance and eliminate slackers. "You're fired" will be a commonly used phrase in the federal government during my administration.

9. I will use the substantial savings and empty buildings: half of all savings goes to reduce the debt; the other half is used to solve the problem of millions of illegals roaming the country due to federal mismanagement of the border:

a) All emptied federal buildings shall be converted to temporary jails (chamber pots, dry sinks, cameras, & computer hookup in 12x6 cells for individual occupancy).

b) All illegals caught have a choice:

(1) Immediate deportation for self and immediate family

(2) 2 years in "educational jail" for violating our immigration laws:

(a) If vetting shows no criminal background

(b) If learn to read, write, speak English fluently

(c) If earn a high school equivalency degree or higher

(d) If a U.S. employer is willing to pay a living wage after sentence completed

Then a legal "green card" is issued with NO possibility of citizenship.

Otherwise deportation. Any employer caught with illegal employees will be fined the cost of deportation and/or incarceration of said employees. Same for landlords?

10. The Dept of Justice shall focus on protecting the civil rights of U.S.citizens guaranteed by the constitution as originally intended and amended:

a) NO right to harm or threaten to harm others (including the unborn and foreign citizens with exceptions granted by Congress/States), or their property.

b) NO right to self harm. An adult may self harm on their own dime (ie substance abuse, pornography, cosmetic surgery), but children up to the age of 18 shall be protected by federal law from these vices with exceptions granted by Congress.

c) NO right to change biological facts. The legal description for a man shall be possession of a Y chromosome; of a woman the lack of a Y chromosome.

d) NO right to deliberately break the law if you feel it is unfair or biased.

e) NO right to spy on or steal information/property from ANYONE, with exceptions granted by Congress–NOT the judicial branch..

The Department of Justice shall, like all other federal departments, be divided into regions and shall be subject to oversight by the AGs of the states it serves.

11. I will negotiate deals with foreign powers; but I WILL NOT provide ANY financial (including humanitarian) or military support without the specific consent of Congress. I WILL NOT align with any foreign power that doesn't have credibly elected officials.

12. I will work toward national security by:

- a) requiring states to verify U.S. citizenship AND state residency of registered voters each year a presidential election is held, all voting machines/ballots secured from tampering, and all voting done in person with few exceptions.
- b) building a wall on our southern border and strengthening all border security as necessary. Help Mexico deal with the cartels.
- c) removing barriers to drilling for oil in the U.S and selling oil to our allies (so they don't turn to hostile nations).
- d) removing federal governmental barriers to U.S. businesses who return manufacturing to the U.S. Removing federal incentives to preferred businesses.
- e) putting tariffs on foreign imports subsidized by their government or that don't adhere to U.S. quality and labor laws. Require clear consumer labeling of all primarily foreign grown/built products, including marketing of such products.
- f) making it illegal for foreign companies/individuals to own U.S. real estate or purchase U.S. based businesses.

Sent to COS on 6/3/24

If Trump wins the presidency, in his inaugural address he needs to state "I will be the 1st president in 222 years to defend the US Constitution as originally intended & amended. I will only enforce laws backed by enumerated powers, as the US Supreme Ct in 1803 stole constitutionality power from the states and created the first of many "implied powers". That eliminates at least 8 cabinet level departments. Reduction in Force letters go out tomorrow, and by FFY26 those depts will have a ZERO BUDGET! All remaining depts will be reduced, re-organized, and regionalized. I shall not recognize, unless a constitutional amendment is passed, any authority above mine as President to re-organize the Executive Branch. Mark Meckler as my VP is in charge of both the reorganization and the movement to create a federal government reform amendment that, among other things, requires original intent interpretation of the Constitution and a process for states to challenge the constitutionality of federal actions in all 3 branches."

I suggest a new theme song for your rallies and inauguration: "Good News" by Mandisa (Lynn Hundley). She recently died and it would be a great tribute, as well as an upbeat song that describes your mission:

"He put me right here for such a right time as now" and

"There's so much pain in the world, dark in the world, we all need some light in the world, so come on tell me your Good News!"
